NO DISTINCTIVE POLICY

on Wednesday last on the surplus cash in the treasury, McKinley, of Ohlo, brought out in an amusing manner the fact that the democratic party is not united on any line of policy or prin party is not united on any line of policy or print ciple of action. McKiniey's speech was, in fact, the best thing that has been done in congress this session. The democrats took it good-naturedly, probably because they were utterly unable to reply to it. No reply, indeed, was attempted, and the speech stands as an unanswerable statement of the fact that the demrthing, but is at variance, with itself upon every question of public interest. The resolution upon which the debate arose was proposed by the ways and means committee, and was a vir tual attack by the democratic leaders of the opportunity to show from the record which the party has made that there was no agreement among its members upon anything that the democratic party is, in fact, without purpose or policy, and is simply allowing things to "duft," because it don't know what to do, or tan t agree what to do its representatives in con-grees have done nothing that the president has recommended, and the president has recom-mended nothing that its representatives in con-

grees have approved
When the new administration came in a change was made in the method of stating the public debt. In the new statement the great tender paper circulation of the country and this great sum became an unavillable asset of kept too much money in the treasury, as I this was the burden of the last president it con test. Yet the first act of the new administra was the adoption of a system or policy under which the amount of money in the tre . was largely increased. This has been going ver since. It was against this policy that the resolution debated on Wednesday was di rected, and the resolution was carried by a vote made up largely of democrats. In effect it was a declaration that the democratic majority McKinley in the course of his speech level

presidential campaign upon the assumption that be republicans had been keeping "idle miilons" in the treasury, and had not paid the national debt fast enough, the fact w s shown that the democrate since they took charge had seen holding still more money and paying the debt still more slowly. By the respution of the ways and means committee it was proposed to instruct, or at least to request, the president and his secretary to do what for sixteen months they had been refusing to do. Again, though the democratic party was pleaged to reform the tariff democrats ted by Randall had defeated the Morrison bill, devised for that purpose and this kindness hid been re-triprocated by democrats led by Morrison, who test in turn the Randall bill Moreover, the suggestions of the president as to silver cornagand civil service reform had been treated in a spirit of opposition, and even of contempt, by the democrate in congress, and altogether there was no kind of agreement in the democratic party as to any course of action

The true—toyout for them to make is the boy cott of saloons and ber gardens and sunday excursions and tobacco and at the habits that broad and breed with them. The true resolutions for them to pass are resolutions to be better truer nobler more sudious and even more inhorious men.

If these thou, bits were we tren as a cloud on the brain and inwaves as fibre into the life of all the wake workers of the land the labor question would such solve itself without any of the strait and bad blood of strikes, and boy outs and without the explosing of a single grain of dynamic under any body a slove or dwelling, or even under any tohin in man is wash house. But until the man born to a life of toll finds out that his could then its with him come massive and that the modes of his toll world a progress had that the modes of his toll world a progress whether his consistent to the world a progress which he come more mannatory and that the modes of his toll world a progress whether he come single mannatory and that the modes of his toll world a progress had that the grey struck he makes to throw it off will become more magnificanous and and of that other law which prohibits a judge from talking to the pury and compels him to make his charge in writing and to confine it to the law points. The reformers also want a prorision that the men who fail to register unlies the new election law in order to avoid jury duty shall be drawn upon in making up the lists Trial by jury is getting to be the despute of thoughtful men the legal demagogue, as distinguished from the sound lawyer, continues to grow eloquent over a jury trial, as if it was the

only royal road to the highest form of attain-able human justice, but every man knows that the average jury that is not seldom a but of bar barter procedure, ending in gross wrong instead of approximate unifice. Of course everybad, knows that trial by jury, when first wrong from the necessities of a crowned tyrant, as it was in the necessities of a crowned tyrant, as it was in the people, not the king, create the judges to try the people, it is shared to consider trial by jury, in its present form, indispensable to the cause of public justice. Judge Benedict, of the United States district court for Brooking, N. 1, once asked a juryman, after his discharge, low, on their consciences, he and his fellows could have acquitted a certain mus, charged with counterfeiting, whose guilt was indisputably proved, and received the following reph "0-0, we did not doubt his guilt; we agreed he was guilty but you see, judge, we thought you would probably be to rough on him, so we are quitted him? The judge indigmently and, "Don't you know it is none of your b islness when a man is guilty what his sentence." The very province the judge was placed on the bench to administer was thus recklessly usurped by jury, who resolved to acquit a rascal in order to marry his pear an M. Ford to the large quantity of arsenic in the woman's site he considered the woman's site he considered the woman's site has accessed was a custiced, and one of the large quantity of arsenic in the woman's site has accessed was a custiced, and one of the large quantity of arsenic in the woman's site has accessed was a custiced, and one of the large quantity of arsenic in the woman's stomach, but also say are that while sentence in the heads of the proper whose perfect of the purpose of the highest character was thus recklessly usuarded by saying that while they did not justice in the provincing of the woman's site of the post of the proper whose propers of the highest character was thus recklessly usuarded by a jury, who resolved to negatit a second to the proper of the propers of the prope the average jury trial is not seldom a bit of bar baric procedure, ending in gross wrong instead of approximate usites. Of course everybody

IURY JUSTICE.

clearness and vivacity of the woman's intellect. in face of the judge's unqualified instructions that the parties stristing to break the will but no case in law or equity, the jury three times Methodist or I nitarian is to dispose of property. and jet in face of this just right in face of perfect proof of sanits, in face of the judge s cau tion that there was no charge of undue inth ence, and his complete sustaining of the will, the jury dodged their plain duty, and in the thurch should not get a cent if they could help it? The strict Protestant chirchmen on the jury all were for sustaining the will, but the jury was bung by the ignorant, g diese, graceless fellows upon it who never went to any church, but had a stupid historical prejudice

t would be for some anti Mason to stall a jury lecause his neighbor willed his lodge somehing or for some radical republican to spit on the facts of sanity, because his copperhead neighbor devoted a portion of his wealth to the erection of a monument to Valian ligham and Brick Pomeroy, or to the planting of a new from

funce around Bob I ee's grave.

In 1 n ontown, Pa, a few years ago a stupid, illiterate jury acquitted a man, clearly guilty of manslaughter, chiefly on the groun i of a bitter political prejudice against the murdered man it on the son a few weeks after deliberately slew the slater of his father, and on trial he too was acquitted Mis. Cobb and her parameur. money embezzled and a large over issue of stock. They tried the treasurer and the jury acquirted bim then they tried the president wice and the jury couldn't agree yet there was a moral doubt but one or both of these men stole the money and made the fraudulent issue of stock. The jury was an honest jury but it was too ignor out to try a case, where all the evidence was comprised in books and accounts a nass of material that a master could have easily saided and made a reject on to which no ore heavy jury could a suprehend after a ing

and of eax weeks duration With the growth of our of ter states the quality of population, from which our juries are taken, seems to have deteriorated, and in propitton the low yer has become less com a n than the head demagagin, who makes a simple speech, full of passion and prejudice, to a beetle-headed jury. A civil case that involves any accurate knowledge of the forms and netheds of intricate matters of business, who contacts the content of t the equities are matters of nice perception and puzzung entanglement, is ofte eide i by a ju y containing some fellow with a pot metal skull, who coulint dr w a promissory note and scorcely read one An accused person, if innocent, ougl: to dread a jury, and if guilty has much less reasput fear it, than he would an acute, cool de-sentimentalized judge. It is evident that my trails are often a burles que and an outrage inon intellurance and instince. outrage upon intelligence and justical be letter to let a bench of eminent judges cide both the law and the facts, or instead of grabbing in the crowd for a juryman, as is done in several states, like Illinois, have a jury select ed with the same care for general intelligence substinitial character and judgment that we have in view when we make up a list for a grand jury. We are inclined to believe that absolute unanimity ought not to be insisted upon Two thirds is all that is demanded we believe by any fair consideration for public justice. One man ought not to be allowed to stall the judgment of eleven of his fellows. Vermont, by a recent act, provides a picked jury in cases of civil or criminal perplexity, and so we believe does hew lork Judge Heyne of South Carolina, and Judge Hargis of Ken'ucky, both favor the abolishment of the jury sis em. The Louisville Course it is not the jury six em. The Louisville Course it is murderer as a privileged character because he has 'to be tried by his peers by his neighbors and frierds, by those who know him to be bold, fearless, revengeful.
